Payments · Solution overview

Credit payments and account credit management

The Pars Hadish credit payment management system manages customers' credit applications, credit allocation, and repayment tracking according to defined plans.

Conceptual product illustration. No real customer information is shown.

From understanding the problem to product development

Areas covered

- ✓ Credit plan definition
- ✓ Customer registration and management
- ✓ Credit application review

How it works

1. Register request and documents
2. Review and allocate credit
3. Track repayment

The requirements and delivery scope of each project are defined with the organisation that will use it.

Discuss this solution

If you are building a product or rethinking an operational process, we can discuss the scope and how to approach delivery.
