Mobile monitoring and observation recording concept

The Pars Hadish mobile monitoring and observation recording system provides a centralized solution for recording violations and field observations, collecting evidence, and managing follow-up.

Conceptual product illustration. No real customer information is shown.

From understanding the problem to product development

Areas covered

- ✓ Field observation recording
- ✓ Image evidence recording
- ✓ Geolocation

How it works

1. Record an observation
2. Review evidence
3. Refer and follow up

The requirements and delivery scope of each project are defined with the organisation that will use it.

Discuss this solution

If you are building a product or rethinking an operational process, we can discuss the scope and how to approach delivery.
