Transport & cities · Solution overview

Hadish Ticket

Hadish Ticket is an integrated electronic ticket sales and management system for cultural, historical, sports, leisure, and tourism venues. It is designed to organize ticket sales, issuance, validation, and monitoring, helping venues manage in-person, online, operator-assisted, and kiosk sales through a centralized platform.

Conceptual product illustration. No real customer information is shown.

From understanding the problem to product development

Areas covered

- ✓ Multichannel sales
- ✓ Project and location definition
- ✓ Service and ticket management

How it works

1. Select a service
2. Payment and issuance
3. Validate usage

The requirements and delivery scope of each project are defined with the organisation that will use it.

Discuss this solution

If you are building a product or rethinking an operational process, we can discuss the scope and how to approach delivery.
